

APPENDIX II-C

COMPARISON BETWEEN OBSERVED HYDROGRAPHS AND HYDROGRAPHS PREDICTED BY THE GA-UH MODEL

Appendix II-C. Comparison between observed and predicted hydrographs for events used in GA-UH model validation. Q_{meas} (unadj) refers to unadjusted measured hydrographs. Q_{meas} (adj) refers to measured hydrographs for which the time axis was adjusted to compensate for timing errors in the measurements.

Appendix II-C (cont.).
